

LITTLE CHANGE IN N.W.V.A. BECAUSE OF ZONE SYSTEM

Plan Expected to Increase R. R. Efficiency 169,000,000 Car Miles

AFFECTS SOFT COAL ONLY

Special Study to be Made of the Supply for New England

WASHINGTON, March 22.—Completion of its zone system of coal distribution designed to bring about economies of transportation and increased production was announced last night by the fuel-administration. Railroad embargoes will be used to enforce operation of the plan.

Anthracite and coke are not affected, neither is coal used for specific purposes such as production of certain by-products and gas. Coal moved on land waterways and that exported to Canada are not included in the regulations.

With the annual production of bituminous coal approximately 300,000,000 tons or 60 per cent. of the country's output it is expected that the saving resulting from the plan will amount to 150,000,000 car miles. This means that the same number of cars would make almost 300,000 additional trips from the mines which would be equivalent to an increase in production of five per cent. Coal operators last winter complained that production was reduced because they could not get cars to load the output and few had storage facilities.

The idea of the plan to have coal consumed as near as possible where it is mined, which is not the general practice now. Products of different sections are sent long distances in many instances largely because people of one section have become accustomed to using a particular product.

A large product of coal which the system will prevent from moving west out of the eastern producing districts will be available for use in New England insofar as it can be transported there. This situation will be made the subject of a separate study by a committee representing the shipping board, the railroad administration, the fuel administration, coal operators, the railroads and consumers.

Roughly outlined the zones are as follows:

Mines in Missouri, Arkansas, Kansas, Oklahoma and Iowa will supply those states, Nebraska, Texas east of the Pecos river, and Louisiana west of the Mississippi.

Lake Michigan and Lake Superior coal docks will supply the Dakotas, Minnesota, the upper peninsula of Michigan and northern Iowa and Wisconsin.

Illinois will supply, from April 1 to September 30, Illinois, Wisconsin, Minnesota, South Dakota, Iowa, Missouri, Arkansas, Louisiana, Tennessee, Kentucky, Indiana, Michigan, and from October 1 to March 31, Wisconsin, Iowa, Missouri, Arkansas, Louisiana, Tennessee, Kentucky, Illinois, Indiana and Michigan.

Indiana will supply Illinois, Kentucky, Tennessee, Mississippi, Arkansas, Louisiana, Texas, Illinois, Wisconsin and Indiana.

Western Kentucky fields will supply Kentucky, Tennessee, Mississippi, Arkansas, Louisiana, Texas, Illinois, Wisconsin and Indiana.

Tennessee, Georgia, Kentucky and Virginia will supply the Carolinas, Georgia, Tennessee, Alabama, Virginia and Florida.

Alabama will supply Louisiana, Mississippi, Arkansas, Georgia, Florida, Texas, Louisiana and West Tennessee.

Ohio will supply Ohio, Indiana and Michigan.

West Virginia high volatile fields will ship to West Virginia, Ohio, Indiana, the lower peninsula of Michigan, Kentucky and Virginia.

West Virginia low volatile fields will ship to District of Columbia, North Carolina, Virginia, Kentucky, Ohio, West Virginia, South Carolina and Lake Erie ports for trans-continent shipment only.

Pennsylvania, Maryland and Northern West Virginia will ship to West Virginia, Maryland, District of Columbia, Delaware, Pennsylvania, New Jersey, New York, New England and Lake ports for trans-shipment only, except that Pennsylvania mines may ship as far west as Wellington and Loraine, Ohio.

Montana, Wyoming, Colorado, New Mexico, Utah, Washington and Oregon will supply the Rocky mountain and Pacific coast states, except that the mines east of the Rockies may ship also to Missouri valley points to supply the summer demand.

MONONGAH

Playing Truant.

Warrant shaves been issued for the arrest of several youngsters who have been playing truant lately. The warrants have been issued by Mayor T. G. Price and just as soon as the boys can be located they will be brought before the justice for a hearing. Mayor Price stated this morning that he was determined to break up the continuous practice of truant here and will take drastic steps to do so if necessary.

Attended Play.

Many local people were in Fairmont yesterday evening. The chief attraction was the play at the high school given by the C. E. Hutchinson class. The several local people attending returned on a special car leaving Fairmont about 11 o'clock.

PERSONALS.

Claud Davis was in Fairmont for a short while this morning attending to business.

C. H. Cypress, of Buffalo, N. Y., was in Monongah this morning as a business transaction.

Roy Addis was among the Monongah social callers to Fairmont yesterday evening.

Charles McCann was in Fairmont yesterday evening.

Mrs. C. M. Smallwood, of Kingwood, was in Monongah yesterday afternoon attending to business.

I. L. Danley was among the local business transactions to Fairmont yesterday morning.

Mrs. L. Thomas, of Fairmont, was in Monongah yesterday attending to shopping.

Grain and Produce

CHICAGO, March 22.—Fresh strength developed in the corn market yesterday owing largely to continued falling off in receipts here and to likelihood that congestion at the seaboard would be relieved to a material extent. Closing prices, although unsettled, were 3/4 to 1/2 net higher with March 12 1/2% and May 12 1/2%. Oats gained 3/4 to 1/2 c and provisions 10@12 to 25c.

New York

NEW YORK, March 22.—Another brisk inquiry for Liberty bonds was the distinguishing feature of today's session of the stock exchange. Dealings in stocks diminished steadily until the final hour when moderate activity set in under lead of industrials and oils.

These shares were favored because of an advance in crude oil prices and intimations from Washington that the new schedule for steel and iron would in all probability eliminate existing inequalities.

Pittsburgh

PITTSBURGH, March 22.—On the Pittsburgh exchange the strong rally in American Window Glass Machine common was the most prominent feature. The stock sold down to 47, a new low on the reaction, rallied to 48 1/2, and then was bid up to 50 at the close, with no stock for sale under \$1. The preferred sold to the extent of only 10 shares at 75.

Pittsburgh Oil and Gas, which recently enjoyed a sharp upward movement, reacted yesterday and closed 3/4 lower at 6 1/2. All the other members of this group were quiet but steady. Independent Brewing preferred sold at 7, its previous low record.

FOR A SPRING TONIC HYPO-COD IS UNEQUALLED

Purifies the Blood, Strengthens the Digestive Organs, Stimulates the Appetite, and Builds up the System in General.

VERY PLEASANT TO TAKE.

In the spring of the year when the blood is changing from the thick warming fluid of the winter to the thin cooling stage of summer, everyone should take a good tonic to cleanse the blood of the many impurities and poisons taken into the system during the winter. For a general spring tonic to accomplish this Hypo-Cod, the great health builder, is unequalled.

Hypo-Cod gets right down to business as soon as used. It begins by cleansing the waste matter from the system, strengthens the digestive organs so that they can extract the full nourishment from your food, creates a "thirst" of an appetite, clears the complexion and fills out all the little hollows that make you look old and haggard, purifies the blood and drives out the impurities such as uric acid, which causes rheumatism and doubles the strength in a very little while.

Hypo-Cod produces results because it contains nothing but the very valuable medicinal extracts from fresh cod livers combined with iron, malt, quinine, manganese, hypophosphates, lime, aromatics, wild cherry bark and a dash of sherry wine, a combination that is powerful and effective yet can

be assimilated by the most delicate system. Ask your doctor.

No dangerous or habit forming drug is added, just the ingredients named above. It is not a stomach disrupting laxative or dope. It is very pleasant to take. In fact its pleasant wine-like flavor is delightful. The children love its flavor and it is one medicine what you won't have any trouble giving them with the assurance that it will benefit them greatly.

Just get a bottle of Hypo-Cod from your druggist today. It costs but \$1.20 for a large size bottle which contains enough of this splendid medicine to treat the average family for weeks.

Note:—There is but one Hypo-Cod, that put up by the Earle Chemical Co., Wheeling, W. Va. If your druggist hasn't sent \$1.20 direct to the company for a large bottle prepaid anywhere.

Hypo-Cod is sold here by Fairmont Pharmacy, Crane's Drug Store, Martin's Drug Store, Holt Drug Co., Mountain City Drug Co. and Hall's Drug Store; in Shinnston by Johnson's Pharmacy; in Farmington by W. P. Moran; in Monongah by Windsor Drug Co., and in Fairview by Frank J. Yost.

Westinghouse stocks were dull. Air Brake being 1/2 lower at 36 and Electric 1/4 higher at 41. There were no transactions in bonds.
